

Test Case 8

Purpose:

1. Verify that the Summer Theme is working as intended.

Requirement Traceability:

Requirement number appears here.

Setup:

Open the Eclipse Application.

Create a new Java Project for Eclipse.

Create a new Java Class under Project named Game, copy and paste provided code for class.

Create a new Java Class under Project named Main Menu, and paste provide code for class.

Run Main Menu class.

Follow the directions below.

Test Data:

Action	Input	Expected Output
Launch the application.		The application main GUI appears.
Set the Minutes Option to 5.	Click the textbox under the MINUTES label and enter the number 5 on the keyboard.	The textbox under the MINUTES should now display the input option.
Start the game.		The application should now display the game GUI with the Summer Theme.

Notes:

The Seconds, Columns, Rows, Win, Go First Options are left as defaults.
